New Heritage Cabin

The new Junction Campfire area is in full use by our Summer Camps!

Supporting Church/Donor Update

Summer Camp: Summer Camp attendance is tracking at the 2008 pace. With the economy in a down turn, we are very pleased to see parents committed to providing a Christian Camping experience for their children. A number of our host groups are showing an increase in their camper attendance. McDonough Christian Church had a significant increase in their Middle and High School Camps. Woodland's ability to host and operate four to five programs a week is a powerful ministry tool. Thanks to our donors and staff for making this possible.

Project Update: The **2009 Golf-A-Thon 100** was a great success. Although the number of our sponsorships dropped due to the economy, group and individual support remained strong. We were thrilled to see new business sponsors teaming with Woodland in this annual event. The new **HVAC Systems** in the West and Junction Dining Rooms have been a great addition to our facilities. We are appreciative to the donors who helped make this project possible. On the schedule for Fall 2009 is the renovation of the **Junction Pool**. The county is requiring us to install a new pump and sand filter, as well as other changes in the filtration system. We also plan to replace the steps and pool liner.

Emergency Appeal Update: On the first day of Summer Camp 2009, our West Camp **walk-in cooler** went down and was irreparable. An emergency appeal letter was sent to donors and churches in early June. We have seen a tremendous response! A new reach-in cooler was purchased last week and installed. Thanks to the families, groups and churches who have given so generously.

Thank you for this gift and your continuing support of Woodland and its ministry. Joey Westbrook, Executive Director
